# ENRICHMENT WEEK 2024

During this last week of the school year, Monday July 15th to Friday July 19th, pupils in Y7 to Y9 will not attend their normal timetabled lessons and instead a range of Enrichment activities will be in place for pupils.

These will include opportunities for pupils to develop their creative, physical and team building skills and to take part in some off-site visits. In addition to the school-based activities and visits we are planning to run several UK based and international residential visits for pupils in Y7 to Y9. Details of the proposed residential visits on offer can be found below.

Please note that the costs of the visits shown are provisional until pupil numbers and itineraries are confirmed with the travel companies.

To request a place for your child on one of these visits you should complete an expression of interest form on Edulink by 4pm on Tuesday 14 November .
